01 ABOUT ME

Motivated Information Technology undergraduate with industry experience in full-stack development and AI-driven solutions. Currently working as a Software Professional Associate, building low-code/no-code platforms for the pharma domain to improve workflow efficiency and compliance. Skilled in React, Node.js, Python, Java, SQL, and modern databases, with a strong interest in scalable systems and emerging technologies.

02 EDUCATION

B.E. in Information Technology

L.J. Institute of Engineering and Technology (2022 - 2026)

Standard 12th Science

Shree Muktajivan Vidhyalaya (2021 - 2022)

Standard 10

Shree Muktajivan Vidhyalaya (2020 - 2021)

03 EXPERIENCE

Webosphere Technolabs May 2025 - Present

Software professional Associate

- Building innovative solutions for the pharma and medical industry by developing a comprehensive low-code/no-code platform. This platform streamlines document workflows throughout the organization, making processes effortless and efficient.

Webosphere Technolabs Nov 2024 - Apr 2025

Software Professional intern

- Focused on learning and implementing generative AI solutions and exploring low-code platforms to enable faster development cycles with minimal resources and maximum efficiency.
